March 8, 2025 p.44	Revised policy: Course Repeats Students must repeat a course in which they receive a failing grade. Students will be registered on the course, preferably in subsequent semesters, should the course be available. If students are unsuccessful on a second-course attempt, they must receive permission from the Dean of the Program to take the failed course for a third time. The highest grade earned is used in the calculation of the grade point average. All course attempts are considered in the calculation of quantitative progress (maximum time frame). Only one repetition of a previously passed course is permitted for financial aid purposes. Students who wish to repeat a previously passed course (receiving a grade of “C” or “D”) are responsible for the tuition for that course as it is not covered by Title IV financial aid. Veteran Affairs will only pay for a repeated course if a higher grade is needed to complete the program. Course repeats are priced at current tuition rates.
